Our Services

Inclusive Apprenticeships

Organisations are realising the benefits of using apprenticeships to develop existing staff as well as to develop new staff they employ, as they are a low risk and cost effective way to grow a workforce. For staff, it provides the opportunity to gain full competency in their chosen occupation on a nationally recognised programme whilst earning a wage.

As part of our apprenticeship provision, we provide you with:

- Account management and funding experience; removing the jargon, with a keep it simple approach to funding and understanding apprenticeship reforms
- A quality driven programme of delivery; meeting the needs of the business and the individual through a tailored training solution.
- A complimentary recruitment service; we will advertise your vacancy, screen applicants and pre-interview potential candidates to ensure you only interview the most appropriate people for your specific role – all free of charge – saving you time and money.

Supported Internships

Designed for 16 – 18 year olds with special educational needs or disabilities (SEND) and 19 – 24 year olds with an EHCP, our supported internship programme helps young people with a disability or learning difficulty take their first steps into employment; learning new skills in a friendly and supportive atmosphere. Throughout the programme students benefit from the support of an experienced Job Coach, specialising in helping those with learning difficulties to undertake work placements with an employer.

Online Courses

Dynamic College (www.dynamiccollege.co.uk) is an online e-learning platform offering a selection of nationally recognised qualifications to learners in the health and social care sector. We are able to offer Advanced learner loans to learners (subject to qualification undertaken).

Training Courses

We offer a comprehensive choice of high quality training for the workplace and can deliver the courses as in-house training (depending on numbers) or at one of our training centres in Uxbridge and Greenford.
