

Caron Keys

THE OLIVER MCGOWAN
MANDATORY TRAINING ON
LEARNING DISABILITY AND
AUTISM

Background: Caron Keys' passion for workforce transformation has seen four decades of progression from senior nurse to senior leader developing the NHS existing workforce through curriculum development and vocational education.

Experience: With a journey of leading a team managing FE in an HEI and working with many Awarding Organisations through to working in the Senior Leadership Team at Dynamic Training, Caron has always maintained that everyone can progress and develop, bringing their own abilities and characteristics to enhance everyone's experience along the way.

Unbridled passion: Whilst Caron tried to retire last year the opportunity to work and co-train with colleagues with lived experience excited her to return to Dynamic Training to work on this project. The Oliver McGowan Mandatory Training will further develop the health and social care workforce in their knowledge and understanding of learning disability and autism and Caron is proud to be part of the team at Dynamic Training taking this forward.
