

Associate Continuing Healthcare Practitioner

 Level 5

24 Months On Programme
Including 3 Months EPA

Overview

The Associate Continuing Healthcare Practitioner apprenticeship is a structured programme that prepares individuals for a critical role within the healthcare sector, focusing on the management of complex health and social care needs for those affected by disability, accident, or illness. Apprentices in this field will be trained to assess these needs meticulously and to plan and commission tailored services, ensuring that individuals receive the comprehensive care they require.

This apprenticeship equips practitioners with the skills needed to serve as the first point of contact for patients and their carers, providing essential support, care, and advice. The blend of on-the-job training and academic learning ensures that apprentices are well-prepared to make a meaningful impact in various settings, including Clinical Commissioning Groups, social services, and community healthcare services.

Upon Successful Completion Of The Programme:

- Associate Continuing Healthcare Practitioner Apprenticeship – Pass or Distinction
- Level 2 English and maths (if not exempt)
